Yet, today sented in the relations of the two he made a speech, the only possible

ASK YOUR DOCTORY

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe.all fatty foods, yet fat is neces-sary for their recovery and they cannot take plain codliver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

SCOTT'S **EMULSION**

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad tasterand odor have been taken away, the oil itself has been partly digested, and the most sen-sitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest It. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.
